

October 10, 2017

Dear colleagues:

**Announcement and Call for Applications of
GMA Group Courses 2017**

Daejeon, Korea

It is my great pleasure to announce that Global Metrology Academy (GMA) of KRISS is going to offer three (3) group courses in 2017. The first one is scheduled to take place for the two weeks of March 20 – March 31, 2017 covering the key subjects of Mass and Related Quantities (MRQ). In addition, we are pleased to be ready to offer a couple of courses of Length and Dimensional Metrology (LDM), and Thermometry and Humidity (TH) in May and August, respectively.

[GMA Group Courses 2017]

Mass and Related Quantities (MRQ): March 20 – March 31, 2017 (* applications by Jan 20, 2017)

Length & Dimensional Metrology (LDM): May 22 – June 2, 2017 (* applications by Mar 17, 2017)

Thermometry & Humidity (TH): August 21 – September 1, 2017 (* applications by Jun 16, 2017)

(→ TH course has been rescheduled!)

Each course will be presenting fundamental knowledge and advanced skills of measurement that are prerequisites for the participants to be experts in their professional fields of metrology. Sessions are effectively organized with lectures and hands-on exercises, so that participants could get comprehensive understanding of what they are supposed to do as metrologists. It will enable them to better meet the needs of customers from wide sectors with quality measurement services of metrology. A two-day session of MiG, Metrology in General, will also be a key component of each course, to address the issues of QMS, CIPM MRA, KC, CMC, traceability and uncertainty in measurement.

Designed to be at an **intermediate level**, each course will accept **around 12 participants**. Enclosed please find the overview of the group courses 2017 and application form, which present provisional programs, qualification/requirements for application, and financial arrangements. For any inquiry about applications, please contact Mr. Sangwook Seo of GMA at swseo@kriss.re.kr.

With all my best wishes!

Sincerely yours,

Jongseon PARK, Ph.D. jspark@kriss.re.kr
Head, Center for Measurement and Training Services
Korea Research Institute of Standards and Science (KRISS)
